

# Trash To Treasure Recycling Project

We are asking each student to come up with a fun, unique way to turn something that is headed for the trash into a functional item that you can either use or admire.

Remember, this is YOUR project. A family member can HELP, but YOU are to do most of the work!

Due May 1<sup>st</sup>

\*Purchased items are not necessary for this project. Use items you have around your home.

\*Your teacher will contact you about how you will share your project.

## Here are some ideas:

Make a bank out of one of these items:

\*Milk Jug

\*Can

\*Box

Egg carton crafts  
Make a bird feeder  
Can wind chimes

For more ideas, check out online resources such as **Pinterest!**

## Optional Fun Earth Day Activities

**Let's go on a nature walk!**

\*Look for the following items

*leaf	*squirrel	*ant
*grass	*tree	*rock
*bird	*flower	*worm
*mud	*bug	*stick

**Outside clean up**-go outside with a parent and clean up the yard around your house or neighborhood!

**Make an Earth Day sign** for your window

**Plant some seeds indoors** and then transfer them to a garden once they are big enough and it gets warmer.

**Do some leaf rubbings.**

**Help plant a tree** or some plants around your home to make it look more beautiful.

**Make an art project** using only items found outdoors. What can you come up with? We would love to see.
